

LETTERS & NUMBERS

#Generate

 **Generate solutions that will appeal to various stakeholder**  12 - 36  1h

Benefits

For the facilitator Gather potential solutions to address a challenge.

For the participant Understand the goals and challenges of various stakeholders.

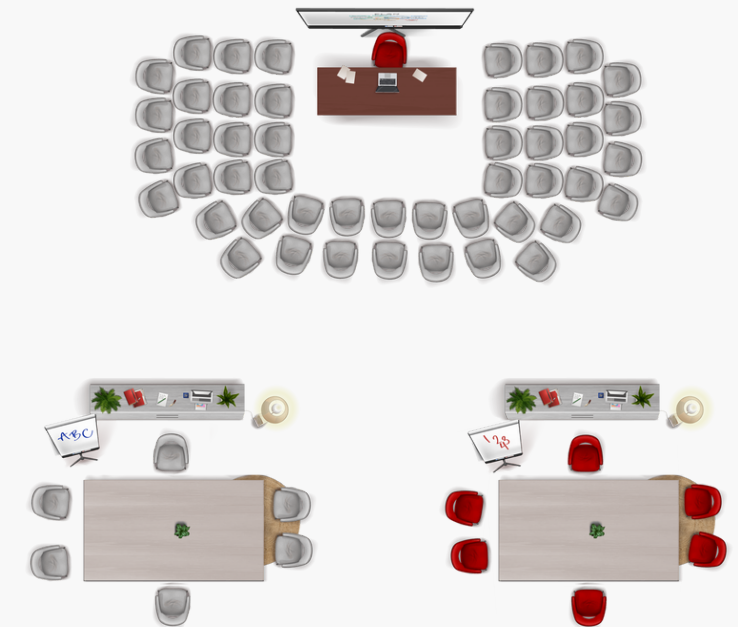

During this activity, a theme is explored from various perspectives. Participants first join a team representing a specific stakeholder to explore it by answering several questions. Then, participants form committees, each including a representative from each stakeholder group, and respond to the questions again, aiming to reach a consensus. This activity promotes communication, collaboration, decision-making, problem-solving, and adaptability.

Sequence

5 min	Activity presentation	<i>In plenary</i>	The facilitator explains the objective and structure of the activity. They introduce the theme to be explored and present the different stakeholders that participants will represent. Each stakeholder is assigned a letter, with each team representing one stakeholder group. The facilitator assigns a letter and a number to each participant.
20 min	Letters	<i>In groups</i>	Participants group by letter. Within their team, they answer the questions from the perspective of the stakeholder they represent.
20 min	Numbers	<i>In groups</i>	Teams are reorganised. Participants regroup by the number they were assigned, forming new committees. Each committee has members representing different stakeholders. Within each committee, participants answer the questions again, working to reach consensus on each answer. While staying true to the roles from the previous round, they focus on addressing the needs and preferences of other stakeholders.
10 min	Observations	<i>Individually</i>	Participants observe and compare the responses to the questions across other committees.
5 min	Overview	<i>In plenary</i>	The facilitator reviews the committees' responses and asks questions about any disagreements, highlighting differences in opinion based on the stakeholders represented.
